Professional Summary

Computer Engineering student with a foundation in software development, web and mobile technologies, and technical problem-solving, complemented by experience in customer service, academic support, and large-scale programming competitions. Combines technical ability with strong communication, organization, and experience working effectively in fast-paced team environments.

Education

Bachelor of Engineering in Computer Engineering

American University of Kuwait (AUK) – Kuwait
2024 – Present

Technical Skills

Programming: Python, Java, JavaScript, HTML, CSS
Frameworks & Technologies: Flutter, Angular (Basic)
Development: Web and mobile application development

Languages

Arabic: Native
English: Fluent

Professional Experience

Front Desk Assistant

Tutoring and Writing Center, American University of Kuwait (AUK), Kuwait
October 2024 – Present

- Coordinate student bookings, session check-ins, and tutor schedules, helping maintain smooth and timely day-to-day center operations.
- Serve as a primary point of contact for students, resolving scheduling issues and directing them to appropriate academic support with minimal disruption.
- Work closely with tutors and staff to manage schedule changes, maintain accurate appointments, and support efficient use of tutoring availability.
- Balance multiple administrative and customer-facing responsibilities while maintaining an organized and professional front-desk environment.

Customer Representative

Qanawat | Kuwait | Part-Time
2023 – Present

- Manage customer inquiries and service concerns from initial contact through resolution, providing clear and solution-focused support.
- Resolve escalated complaints and challenging customer situations while maintaining professional relationships and protecting the overall customer experience.
- Identify customer needs through active listening and problem-solving, enabling faster and more appropriate resolution of service issues.
- Collaborate with colleagues on complex cases to maintain consistent service standards and prevent avoidable delays or repeated issues.

Volunteer Experience

Operations Team

ICPC 2018 | ACPC 2018 | KCPC 2019 | ICPC 2019 | KCPC 2021

- Supported the successful delivery of five regional and international competitive programming events, coordinating participant activities, setup, logistics, and operational requirements.
- Worked within fast-paced event teams to resolve operational issues, maintain schedules, and help competitions run smoothly from setup through completion.

Executive Office

ACPC 2019 | ICPC 2021

- Supported contest leadership across two major programming competitions, coordinating administrative tasks, event logistics, and time-sensitive operational requirements.
- Helped maintain communication between leadership and operational teams, contributing to organized and efficient event execution.

Media Team

TCPC 2018 | LCPC 2018

- Supported media operations across two programming competitions, contributing to event coverage, content creation, and documentation.
- Coordinated media activities with competition schedules to ensure key event moments and activities were captured effectively.
